

Report on Activity - Awareness program & technical development in rural areas

After first phase we decided an activity called **Awareness program & technical development in rural areas** under the banner of **UBA on dated 22/02/2023** on the occasion of national science day. The venue of this program decided at **Govt. higher secondary school Atari**.

Activities held on 22/02/2023.

1. Nukkadnatak based on science was presented by students of Rcpsr
2. Quiz competition
3. Poster competition
4. Best out of the waste competition
5. Science exhibition.

The program was started in the presence of principal Govt. higher sec. school **Atari shri V Pkashyap** sir and firstly Nukkadnatak was performed by pharmacy students for awareness and importance of science in social life.

Then after quiz questions asked by kdcrcst students and it was very knowledgeable to the school students.

Then we started our poster and best out of the waste competition smoothly and it was so interesting to see that students participated in large numbers. Then various science based models and experiments showed by our volunteers to the students for enhancing their knowledge and skills towards science.

Then we present gifts and certificates to the winners of each competition as token of love.

Here is the winning participant list-

1. Poster competition - 1st position - Khushboonishad class 9th
