Engaging Community Children on World Earth Day

On April 23, 2024, volunteers of Shoolini University visited Prayas School of Manjholi Village situated in the vicinity of the Shoolini University. The volunteers had gone for the Celebration of World Earth Day. The purpose of this visit was to make School students aware about the pollution related issue and to motivate them to preserve our environment. For this reason, a group of students shown the videos based on “Save Earth” in front of the school students. The school students were asked questions related to their leanings from the stories shown to them. The school students were very happy with activities and School Teacher appreciated the efforts of Shoolini volunteers and thanked DSW Team and management of Shoolini University for this effort. Everyone was served refreshments at the end.
