

KHALSA COLLEGE, GARHDIWALA (HOSHIARPUR)

REPORT ON POSTER MAKING COMPETITION UNDER NATIONAL ONE HEALTH MISSION

DATED: 22ND AUGUST, 2025

Khalsa College, Garhdiwala organized a Poster Making Competition under the **National One Health Mission Campaign** of **Unnat Bharat Abhiyan**, focusing on “Zoonotic Diseases and Clean Environment Solutions.” The event aimed to raise awareness about the link between environmental hygiene and the spread of zoonotic diseases. Students from various departments participated enthusiastically, showcasing creative and informative posters that emphasized prevention, sanitation, and sustainable practices. The competition encouraged interdisciplinary thinking and community responsibility. Winning entries were recognized for their originality and relevance. Overall, the event successfully promoted the importance of a clean environment in safeguarding public health and inspired proactive student engagement.

Objective

The Poster Making Competition was organized to raise awareness among students about the growing threat of zoonotic diseases and the importance of maintaining a clean environment to prevent such outbreaks. The initiative helps in promoting interdisciplinary collaboration and community engagement for public health and environmental sustainability.

Participants

- Students from various departments of Khalsa College enthusiastically participated.
- Judging panel included faculty members and subject experts environmental science.

Highlights of the Competition

- Posters creatively depicted the transmission of zoonotic diseases such as rabies, avian flu, and leptospirosis.
- Many entries emphasized the role of sanitation, waste management, and eco-friendly practices in disease prevention.
- Innovative ideas like community composting, awareness drives, and animal vaccination campaigns were illustrated.
- Use of biodegradable materials and recycled paper was encouraged to align with the theme.

Awards & Recognition

- **First position:** Manjot Kaur, B.sc 3rd Sem got first position for a compelling visual on the link between deforestation and zoonotic outbreaks.
- **Second Position:** Sharanpreet Kaur from B.Com 1ST Sem got second position for highlighting the role of clean water in preventing disease spread.
- **Third position:** Manjot Kaur from BCA 3RD Sem for highlighting the role of clean water in preventing disease spread.

Conclusion

The Poster Making Competition successfully fulfilled its goal of educating and engaging youth on critical health and environmental issues. It served as a platform for students to express their ideas and contribute to the vision of a healthier, cleaner India.
