

Blood Donation Camp

Attendees = 35

On February 17, 2025, the Lifesaving Impact: Blood Donation Camp was held at the Management Development Centre, MSU-Baroda, in a joint effort by Unnat Bharat Abhiyan, the Faculty of Management Studies of MSU-Baroda, and the Indian Red Cross Society. This event brought together students, faculty, and staff in a vital initiative that not only collected significant units of blood—each capable of saving up to three lives—but also emphasized the importance of regular donations as a civic duty. The camp succeeded in educating participants about the ongoing need for blood and reinforced the community's role in supporting health initiatives. The day concluded with refreshments for all donors, celebrating their life-saving contributions and strengthening the commitment to future health-related activities.
