## **A Brief Report of the Program**

An Awareness Program on “**Menstrual Hygiene**” was organized on **4th December 2025** at **Upperdani High School, Rajapani Chanda, Kamrup (M)** as an **extension activity of Pandu College Women Cell** in collaboration with **Pandu College Participating Unit (PIU)** and **Unnat Bharat Abhiyaan**.

The programme was conducted by **Dr. Karishma Shravan**, Assistant Professor, Department of Mathematics, Pandu College, who served as the Resource Person. She discussed the importance of menstrual hygiene, addressed common myths and misconceptions, and emphasized the need for proper hygienic practices for the physical and mental well-being of adolescent girls.

As part of the awareness initiative, a **documentary on menstrual hygiene** was also screened during the programme. The documentary helped the participants gain a clearer understanding of menstrual health, hygiene practices, and the social stigma associated with menstruation.

The programme was informative and interactive, and the participants responded positively. Overall, the programme was successful in creating awareness and promoting healthy and hygienic practices among the students.
