A Brief Report of the Program

An Awareness Program on “**Social Media Footprint**” was successfully organized on **4th December 2025** at **Upperdani High School, Rajapani Chanda, Kamrup (M)**. The programme was conducted as an extension activity of **Pandu College Women Cell** in collaboration with **Pandu College Participating Unit (PIU)**, **Unnat Bharat Abhiyaan**, and the **Institution’s Innovation Council (IIC)**. The programme was also supported by **MRD’s Innovation Cell, Government of India**.

The objective of the awareness programme was to sensitize students and participants about the concept of social media footprints, responsible digital behaviour, online privacy, and the long-term implications of one’s digital presence.

The resource Person for the programme was **Dr Navaneeta Baruah**, Associate Professor, Department of History, Pandu College. Dr Baruah delivered an insightful and engaging session, explaining the meaning of social media footprints, both positive and negative, and how online actions can have lasting personal, academic, and professional consequences. She emphasized the importance of ethical social media usage, data privacy, cyber safety, and critical thinking while sharing information online.

The session witnessed active participation from students and teachers of Upperdani High School. The interactive discussion encouraged students to reflect on their own social media habits and understand the need for responsible digital citizenship.
