

Participation in Two days Workshop on Village Adhyan at NIRDPR, Hyderabad

Dr. A Seshappa, Mr. B Lingam and Mr. G Ravi Kumar attended a two days workshop on Village Adhyan at NIRDPR, Hyderabad from 17 Mar 2026 to 18 Mar 2026. The workshop was a transformative experience for Team CIST. By presenting our own UBA activities on Day 1 and engaging in a deep reflection on Day 2, we have returned to KG Reddy College with a clear, expert-backed roadmap for rural development. We are now better equipped to turn our engineering students into "change agents" for a *Viksit Bharat*.

I had the wonderful opportunity to attend the Village Adhyan Workshop organized by NIRDPR-National Institute of Rural Development and Panchayati Raj. Representing the Center for Innovation and Social Transformation (CIST) - KGR CET, I presented our ongoing initiatives and community-driven projects to a diverse group of delegates from across the country. It was truly enriching to share our work and receive valuable insights and perspectives from practitioners, academicians, and development professionals working at the grassroots level. The workshop provided a meaningful platform to engage in discussions around rural development, community engagement, and sustainable innovation. Interacting with participants from different regions helped broaden my understanding of real-world challenges and innovative approaches being implemented nationwide. Grateful to Dr. SAMYUKTHA PENTA for the opportunity to learn, connect, and contribute. Looking forward to translating these learnings into impactful actions through the Center for Innovation and Social Transformation (CIST) - KGR CET. Thankful to Dr. SESHAPPA ANGADI and GARRE RAVI KUMAR for the smooth Coordination
