

Village Household Survey and Educational Support Drive under Unnat

Bharat Abhiyan

Under the Unnat Bharat initiative, a comprehensive village and household survey was conducted on 21 March 2026 in five adopted villages by student volunteers from the Government College of Pharmacy, Rohru, as per Office Order No. 63 dated 19.03.2026. The survey was carried out in accordance with the directions received from the National Coordinating Institute (NCI), IIT Delhi, as communicated through the official email titled “Utilization of Seed Money Grant and Completion of Household Survey” dated 12.02.2026, and as per the format provided under UBA guidelines.

The survey aimed to understand the socio-economic conditions of the villagers, identify key challenges faced by rural communities, and promote community engagement through active student participation. It was successfully conducted in the adopted villages of Annu, Brasali, D.P.F. Brasali, Kaneora, and Runda, all of which fall under Brasali Panchayat.

The primary objectives of the survey were to collect household-level data for developmental assessment, identify major issues faced by rural communities, encourage student involvement in rural development initiatives, and provide basic educational support to village students.

Student volunteers were divided into teams, and door-to-door household data collection was carried out systematically. They interacted closely with villagers and also communicated with members of each village to better understand their problems and concerns. Additionally, educational materials, including notebooks and pens, were distributed to school-going children as part of an educational support initiative.

The villagers actively participated in the survey and openly shared their concerns, contributing to the successful completion of the activity.

The detailed expenditure incurred during the survey is tabulated below:
