

Report
on
**Plastic Collection Drive at KG Reddy College of Engineering and
Technology**
- for Sustainable Bus Shelter Construction

Conducted
From 19-04-2024 to 22-04-2024

Organized by
Centre for Innovation and Social Transformation

Submitted by
Mr. G Ravi Kumar

Coordinator

Head-CIST

PRINCIPAL
PRINCIPAL
KG Reddy College of Engineering & Technology
An Autonomous Institution
Moinabad (M), R.R. Dist, Telangana.

Objectives:

- To collect recyclable plastic waste from the college campus for use in the sustainable bus shelter project.
- To create awareness among students, faculty, and staff on plastic waste management and recycling.
- To promote eco-friendly practices and responsible disposal habits within the campus.
- To involve students in sustainability-driven community development activities.
- To support CIST's commitment to innovation, sustainability, and social responsibility.

Outcomes:

- Successfully conducted the plastic collection drive across the college campus.
- Collected a considerable quantity of recyclable plastic for the bus shelter project.
- Increased awareness on plastic segregation and recycling among the campus community.
- Encouraged active participation of students, faculty, and staff in sustainability initiatives.
- Created a reusable material resource for eco-friendly infrastructure development.

Impact Analysis:

- Reduced plastic waste generation and disposal within the college campus.
- Promoted circular economy practices by converting waste into useful construction material.
- Strengthened environmental consciousness among students and staff members.
- Provided students with experiential learning in sustainability and community service.
- Reinforced CIST's role in leading innovative and socially responsible campus initiatives.
- Contributed to SDG 11 (Sustainable Communities), SDG 12 (Responsible Consumption and Production), and SDG 13 (Climate Action).
