

# THE QUAIDE MILLETH COLLEGE FOR MEN

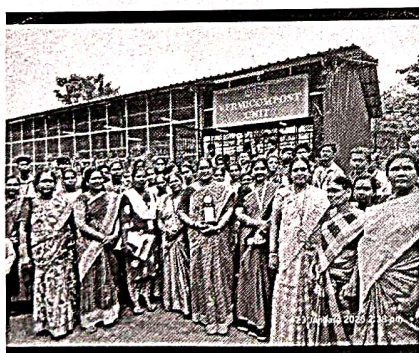

## REPORT on

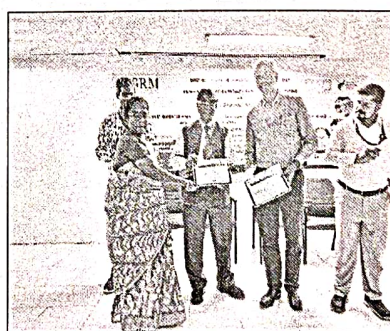

### HANDS - ON TRAINING ON MUSHROOM CULTIVATION, VERMICOMPOST & BIOENZYME PRODUCTION

#### About the Programme:

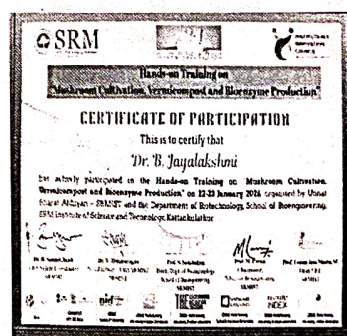

Under the initiative of Unnat Bharat Abhiyan, a two-day Hands-on Training Programme on Mushroom Cultivation, Vermicompost and Bio-enzyme Production was organised by the Department of Biotechnology, School of Bioengineering, SRM Institute of Science and Technology, Kattankulathur, on 22<sup>nd</sup> and 23<sup>rd</sup> January 2026. The programme provided practical exposure through demonstrations and hands-on sessions on mushroom cultivation methods, vermicompost preparation using organic waste, and bio-enzyme production for agricultural and domestic applications. Experts explained scientific cultivation techniques, maintenance procedures, and effective utilization of natural resources to improve soil fertility and environmental sustainability. The training emphasized organic farming practices, recycling of biodegradable waste, and opportunities for self-employment through sustainable production methods. The programme was highly informative and skill-oriented, enhancing practical knowledge in organic cultivation and environmental conservation. The training encouraged participants to adopt sustainable practices and apply eco-friendly techniques for community development and agricultural improvement.
