

World Environment Day Celebration Report

The Indra Ganesan Educational Institutions organized World Environment Day on 5th June 2026. The programme was jointly conducted by the Department of Research and Development & Unnath Bharath Abhiyan with the primary objective of promoting environmental awareness and encouraging sustainable practices for a greener and healthier environment.

The event was graced by the presence of the Secretary, Mr.G.Rajasekaran, Director, Dr.G.Balakrishnan, and Registrar, Dr.M.Anusuya. In their addresses, they emphasized the importance of environmental conservation, sustainable development, and collective responsibility in building a healthier and safer world for future generations. They encouraged students to adopt eco-friendly habits and actively participate in protecting natural resources.

Students from all institutions under the Indra Ganesan Group enthusiastically participated in the programme. Ms.R.Rabiya, Final Year B.Pharm, student delivered an insightful speech on environmental awareness and protection, highlighting the urgent need to address environmental challenges through individual and community efforts.

As part of the programme, students took a pledge to protect the environment, conserve natural resources, and spread awareness about environmental sustainability among the public. The pledge reinforced their commitment to adopting environmentally responsible practices and inspiring positive change in society.

To mark the occasion, students actively participated in a tree sapling plantation drive within the campus. 10 saplings were planted with the aim of enhancing green cover, improving biodiversity, and promoting a cleaner and healthier environment. The activity encouraged students to understand the importance of trees in maintaining ecological balance and combating climate change.

The programme successfully created awareness among students about environmental responsibility and strengthened the institution's commitment towards building a sustainable future. The event served as a meaningful platform to inspire young minds to contribute towards environmental protection and sustainable development.
