

ST. XAVIER'S P.G. COLLEGE, PHAGI

Unnat Bharat Abhiyan

Activity Report (Environmental Protection)

Village-Pachala

Date:-04-Feb-2026

1. Introduction

Unnat Bharat Abhiyan (UBA) is a flagship program launched by the Ministry of Education. Unnat Bharat Abhiyan was launched on 11 November 2014 and its implementation began in 2015, with a restructured full-scale rollout in 2018. Environment is the foundation of human life, and a clean and balanced environment is essential for survival. In the present era, rapid industrialization, urbanization, population growth, and excessive use of plastic have significantly increased environmental pollution. Air, water, and land pollution are not only disturbing ecological balance but also adversely affecting human health.

Keeping these concerns in mind, St. Xavier PG College, Phagi organized a comprehensive Environmental Protection Program in Pachala village under the Swachh Bharat Abhiyan. The aim of this program was not only to clean the surroundings but also to create long-term awareness among villagers regarding environmental conservation.

2. Objectives of the Program

- ❖ To increase awareness about environmental conservation in rural areas
- ❖ To implement the objectives of Swachh Bharat Abhiyan at the village level
- ❖ To educate people about the harmful effects of plastic
- ❖ To promote greenery through tree plantation
- ❖ To spread awareness about water conservation and sanitation
- ❖ To develop a sense of social responsibility among students
- ❖ To motivate villagers to adopt a clean and healthy lifestyle

3. Introduction of Village Pachala

- ❖ Name of Village:- Pachala
- ❖ Tehsil : Phagi
- ❖ District : Jaipur

- ❖ Sarpanch :
- ❖ Pin Code : 303005
- ❖ Approximate Area: 736.29 Hectares.
- ❖ Population: Approximately 1268.
- ❖ Main Occupation: Agriculture (Farming), Agriculture Labor and Animal Husbandry.

Pachala village is a medium-sized rural area primarily dependent on agriculture and animal husbandry. Although the village is rich in natural resources, there is a lack of awareness regarding cleanliness and environmental protection.

There is no proper waste management system, leading to open dumping of garbage. The use of plastic is also quite high, resulting in soil and water pollution. Additionally, the lack of water conservation practices is a major concern.

Considering these conditions, the village was selected for the program to create awareness and bring about positive environmental changes.

4. Travel Details

"Under the guidance of **Principal Dr. Navratan Harshwal & Coordinator Mr. Mukesh Kumar Meena** and the mentorship of faculty members, On the day of the program, students and faculty members assembled at the college campus in the morning. They were briefed about the objectives and structure of the program.

After that, the team departed for Pachala village by bus. During the journey, students showed great enthusiasm and excitement. Upon arrival, the team was warmly welcomed by the village representatives, and the program was formally initiated.

Upon arrival Village, the team was welcomed by local representatives and villagers. The program was conducted at a community place At the beginning, the villagers were informed about the objectives and structure of the program.

Pachala village is a medium-sized rural area primarily dependent on agriculture and animal husbandry. Although the village is rich in natural resources, there is a lack of awareness regarding cleanliness and environmental protection.

There is no proper waste management system, leading to open dumping of garbage. The use of plastic is also quite high, resulting in soil and water pollution. Additionally, the lack of water conservation practices is a major concern.

Considering these conditions, the village was selected for the program to create awareness and bring about positive environmental changes.

5. Materials Distributed

- ❖ Saplings (such as Neem, Peepal, etc.) for plantation
- ❖ Pamphlets and posters related to environmental awareness
- ❖ Cloth bags as an alternative to plastic
- ❖ Informational leaflets on water conservation and cleanliness
- ❖ Educational materials for children (for drawing activities)
- ❖ Dustbins
- ❖ Basic hygiene materials

These materials were distributed to encourage villagers to adopt practical cleanliness habits.

6. Activities Conducted

The following activities were conducted:

- ❖ Cleanliness Drive: Cleaning of major areas in the village
- ❖ Tree Plantation: Plantation of saplings in different locations
- ❖ Awareness Rally: Students spread awareness through slogans
- ❖ Street Play (Nukkad Natak): Performed to educate villagers
- ❖ Public Interaction: Discussions with villagers on environmental issues
- ❖ Oath Ceremony: Villagers pledged to maintain cleanliness

7. Outcomes of the Program

- ❖ Increased awareness about environmental protection among villagers
- ❖ Better understanding of cleanliness and green practices
- ❖ Motivation among villagers to reduce plastic usage
- ❖ Sense of responsibility towards environmental conservation
- ❖ Increased interest among children and youth

8. Conclusion

The program organized in Village Pachala proved to be an important step towards environmental conservation. Such initiatives not only spread awareness but also encourage practical actions at the grassroots level.

Continuous efforts in this direction can significantly contribute to sustainable rural development. So that a clean and healthy india can be built.

“Clean Environment, Healthy Life”
