

REPORT ON WORLD AUTISM WEEK CELEBRATION

APRIL 2nd -8th 2024

Autism spectrum disorders (ASD) are a diverse group of conditions. They are characterized by some degree of difficulty with social interaction and communication. The abilities and needs of autistic people vary and can evolve over time. While some people with autism can live independently, others have severe disabilities and require life-long care and support.

Every year, on April 2 World Autism Awareness Day is celebrated to empower and help autistic people lead a normal life. The theme of World Autism Awareness Day this year is '**EMPOWERING AUTISTIC VOICES**' which aims at providing more support and power to the individuals with this condition, in order to ensure they lead a meaningful life and even pursue successful careers. The color blue, associated with calmness and acceptance, is the primary color designated for autism. Its popularity also stemmed from the worldwide Autism Speaks initiative, Light It Up Blue. The puzzle piece, also made famous by Autism Speaks, is one of the most commonly recognizable symbols denoting autism.

As a part of World Autism Week, Department of Mental Health Nursing along with fifth Semester B.Sc. Nursing students celebrated the whole week and
