UNIVERSITY OF TECHNOLOGY

VATIKA, JAIPUR

School of Basic and Applied sciences

Activity: Science Experiment Demonstration

Date: 30th September 2026

Venue: Government School, Kumahriyawas

The School of Basic and Applied Sciences, University of Technology, Jaipur, is organizing an extension activity at Government School, Tutoli, to promote scientific awareness and develop scientific temperament among school students. The programme will include demonstrations of simple and interesting science experiments to encourage curiosity, creativity and practical learning. Students will also have an opportunity to interact with faculty members and participate in science-related activities. Prizes will be awarded to encourage active participation and interest in science.
