

## Report on Household Baseline Survey

**Institution:** Mehta College and Institute of Technology

**Survey Team:** Dr. Pankaj Kumar Soni (UBA Coordinator and Principal), 15 Students, Faculty Members

**Date of Survey:** 3rd November 2025

**UBA Adopted Villages / Location:** Rampura and Sewapura

**Survey Conducted by:** UBA Team, Mehta College and Institute of Technology

### 1. Executive Summary

This report presents the findings of a **Household Baseline Survey** conducted on **3rd November 2025** in the UBA adopted villages **Rampura and Sewapura**. The UBA team from **Mehta College and Institute of Technology**, comprising **Dr. Pankaj Kumar Soni (Principal & UBA Coordinator)**, 15 students, and faculty members, carried out the survey to assess socio-economic conditions and developmental needs.

A meeting with **Gram Sachiv Shri Rakesh Sharma** was conducted, during which valuable feedback regarding the villages' current status and areas for improvement was shared.

### 2. Introduction

Under the **Unnat Bharat Abhiyan (UBA)**, **Mehta College and Institute of Technology** has adopted **Rampura and Sewapura** villages for rural development. The objective of the baseline survey was to gather data on the socio-economic conditions, identify infrastructural gaps, and assess the developmental needs of these villages to design future interventions.

### 3. Objectives of the Survey

The main objectives of the survey were:

- To gather data on the socio-economic status of households in Rampura and Sewapura.
- To identify key infrastructure needs and development challenges.
- To gather baseline data for designing UBA interventions.
- To engage with the community and local authorities for feedback.

#### 4. Methodology

- **Survey Type:** Household Baseline Survey
- **Survey Location:** Rampura and Sewapura
- **Date of Survey:** 3rd November 2025
- **Survey Team Composition:**
  - Dr. Pankaj Kumar Soni (Principal & UBA Coordinator)
  - 15 Students
  - Mrs Neeraj Choudhary
- **Data Collection Method:**
  - Household visits (door-to-door survey)
  - Field observations
  - Interaction with local stakeholders (Gram Sachiv, community leaders)

#### 5. Key Findings

##### **Socio-Economic Status:**

- The majority of households depend on agriculture and daily wage labor.
- Literacy rates are moderate, with a higher dropout rate among girls due to economic and social reasons.

##### **Infrastructure Needs:**

- There is an urgent need for proper sanitation and access to safe drinking water.
- Poor road connectivity, especially in remote areas.

##### **Educational Facilities:**

- Local schools lack infrastructure and qualified teachers.
- Limited availability of educational resources, especially for digital learning.

##### **Healthcare:**

- Inadequate healthcare facilities, with no regular medical check-ups.
- A large portion of the population lacks access to health insurance or financial support for medical treatment.

#### 6. Feedback from Gram Sachiv Shri Rakesh Sharma

During the survey meeting with **Gram Sachiv Shri Rakesh Sharma**, he provided the following feedback:

- A strong emphasis on improving basic infrastructure, including water supply and sanitation.
- A request for greater educational support, especially for girls and underprivileged students.
- Highlighted the need for mobile medical units or regular health camps.
- Suggested that more youth engagement activities be organized for skill development and community participation.

#### 7. Recommendations

Based on the survey findings and feedback from **Gram Sachiv Shri Rakesh Sharma**, the following recommendations are proposed:

##### **1. Infrastructure Development:**

- Improve sanitation and drinking water facilities.
- Strengthen road connectivity in rural areas.

## **2. Educational Improvements:**

- Provide digital resources and educational materials to local schools.
- Organize workshops for teachers to improve their teaching skills.

## **3. Healthcare Initiatives:**

- Set up regular health camps and mobile healthcare units.
- Conduct health awareness campaigns focusing on hygiene and preventive care.

## **4. Community Engagement:**

- Organize skill development programs and vocational training for the youth.
- Involve the local community in identifying and solving issues.

## **8. Conclusion**

The baseline survey in **Rampura** and **Sewapura** has provided critical insights into the needs and challenges faced by the villagers. These findings will serve as the foundation for future development activities under the **Unnat Bharat Abhiyan (UBA)**. The feedback from **Gram Sachiv Shri Rakesh Sharma** will guide the direction of UBA interventions to ensure they are community-driven and meet the villagers' most pressing needs.

## **9. Acknowledgments**

The survey team extends its sincere thanks to **Gram Sachiv Shri Rakesh Sharma** for his valuable feedback and cooperation, and to the residents of **Rampura and Sewapura** for their active participation. We also appreciate the support of the faculty and students of **Mehta College and Institute of Technology**.
