

## UNNAT BHARAT ABHIYAN

JANARDAN RAI NAGAR RAJASTHANVIDYAPEETH, UDAIPUR - RAJASTHAN

### PROGRESS REPORT

Till December, 2019

**UBA Principal Investigator: Prof. (Col.) S.S. Sarangdevot**

**UBA Coordinator: Dr. Chandresh Kumar Chhatlani**

**Email:** chandresh.chhatlani@gmail.com

**Phone Number:** +919928544749

Sr. No.	ADOPTED VILLAGES	TALUKA (Block)	DISTRICT
1	Sakroda	Girwa	Udaipur
2	Kanpur	Girwa	Udaipur
3	Bedla (CT)	Bargaon	Udaipur
4	Nai	Girwa	Udaipur
5	Kharpina	Girwa	Udaipur
6	Tiloi	Kotra	Udaipur
7	Jhadol	Jhadol	Udaipur
8	Sarada	Sarada	Udaipur
9	Salumbar	Salumbar	Udaipur
10	Kachher	Vallabh Nagar	Udaipur

**List of activities:**

**ACTIVITY 1:**

**Title of the Activity: Free Medical Camps in Villages**

**Need of the Activity:**

Due to long distance and less connectivity to urban area ,villagers are depend on medicines made from forest and local trees which takes time to cure or didn't work .

**Brief Description (Need/Impact/Action/Picture (if any)):**

We organize free medical check-up camps for Stone, Jaundice, Skin diseases, Malaria, Typhoid, Piles, Asthma, Blood Pressure, Gynic problems, etc. In such camps we provide free homeopathic medicines to the patients also.

## ACTIVITY 2:

**Title of the Activity:** Workshop on village level organic farming

### **Need of the Activity:**

Organic farming practices reduce pollution, conserve water, reduce soil erosion, increase soil fertility, and use less energy. Farming without pesticides is also better for nearby birds and animals as well as people who live close to farms.

### **Brief Description (Need/Impact/Action/Picture (if any)):**

In this workshop, training provided for practical how-to information on systemic and biological approaches including: rotations, weed seed-bank reduction, stale beds, fertility and tillage, predation and allelopathy, living mulch, canopy and niche in relation to the agronomic principles of an organic farming system.

### ACTIVITY 3:

#### Title of the Activity: Workshop on Indian Idol Art

#### Need of the Activity:

The history of Indian religion and culture has become famous globally for its continuity and uninterrupted current. Tolerance, harmony, generosity and acceptance are the sources of sustainability in this culture. Coordination is the soul of India. The one who did not know the coordination did not know India either. This coordination is as relevant today as it was in ancient times. Art works to connect various components of society. This is the reason why we find statues of Jains as well as Saiva and Vaishnav sects at Jain sites. Therefore understanding of previous art is very necessary.

#### Brief Description (Need/Impact/Action/Picture (if any)):

In this workshop following discussions have been made:

- Tradition and Ethics in Ancient Sculpture
- The prevalence of the Indian thinking tradition in the marking of Indian sculptures
- A special kind of unity in Indian sculpture from ancient times till today
- Information about idol art in Rigveda and Upanishads
- Brass or metal sculptures
- Sculpture in the Gupta period
- Development of a single and warm Shivling
- Development of Ardhanarishwara statue

#### **ACTIVITY 4:**

##### **Title of the Activity: Village and Household Survey of Villages**

##### **Need of the Activity:**

The Mission of Unnat Bharat Abhiyan is to enable higher educational institutions to work with the people of rural India in identifying development challenges and evolving appropriate solutions for accelerating sustainable growth. It also aims to create a virtuous cycle between society and an inclusive academic system by providing knowledge and practices for emerging professions and to upgrade the capabilities of both the public and the private sectors in responding to the development needs of rural India.

One of the fundamental objectives of UBA is to understand the factual and authentic data of living conditions in rural areas. To fulfill this aim, team of UBA has developed survey forms, which is required to be filled to get the above said data.

##### **Brief Description (Need/Impact/Action/Picture (if any)):**

Our team has visited and filled survey forms in Sakroda, Kanpur, Bedla (CT), Nai, Kharpina and Kachher villages.

## ACTIVITY 5:

### Title of the Activity: Extension Lectures on water conservation and promotion

#### Need of the Activity:

Water Conservation is one of the greatest issues of the time both in the rural areas as well as the urban areas. There is extreme need of awareness and promotion of conservation of water. Having clean drinking water is also a challenge. However, India has enough rains, But most of that water flows down into the sea taking with it the fertile top soil. There are technologies available, both in the modern sector as well as in the traditional sector for better water conservation. Therefore, this extension lecture is organized by the UBA team of our University.

#### Brief Description (Need/Impact/Action/Picture (if any)):

Magsaysay Award-winning "Waterman" Rajendra Singh has been invited to deliver the lecture on 'Extension Lectures on water conservation and promotion'. He said that if we do not warn about the environment in time, the consequences will be terrible. He also said that we should come forward to save water, forest and land. If water, forest and land are not saved then our life will not be saved. The way we are waging with the environment, water, air is changing at a rapid rate, due to which dryness is causing havoc. Presiding Vice Chancellor Prof. S.S. Sarangadevot said that the original impact of rivers can be saved by indigenous systems. He conveyed that earlier water needs of the people were fulfilled by rivers and ponds, but now these sources have become polluted or are over. In such a situation, dependence on ground water has become the first requirement of the people.

**Next action plan:**

<b>Sr. No.</b>	<b>Activity to be conducted (along with reason)</b>
<b>1</b>	<p data-bbox="323 188 616 221"><b><u>Technology to village</u></b></p> <p data-bbox="323 262 1382 365">To make aware rural people with latest technology for the people. This includes awareness of UPI transactions, Social Media, use of technology in agriculture, etc.</p> <p data-bbox="323 409 1307 443">The aim of UBA team of our University is capacity building of rural people.</p>
<b>2</b>	<p data-bbox="323 450 1118 483"><b><u>Sports awareness Programmes in Rural and Tribal Areas</u></b></p> <p data-bbox="323 524 1382 591">To understand present condition of sports in villege and challenges to improve that through a survey.</p>
<b>3</b>	<p data-bbox="323 598 603 631"><b><u>Water Management</u></b></p> <p data-bbox="323 672 1382 775">To increase the irrigated area, watershed development will be undertaken by providing core wall by digging puddle punch trench up to level of hard rock. It will be a cost-effective solution and it is as effective as cement check dam.</p> <p data-bbox="323 815 1382 882">Also for 'Jalyukt Shivar' scheme our faculty members and students will build a dam with the help of sand bags on brook of village.</p> <p data-bbox="323 922 1382 990">Due to this recharging of ground water aquifers will be done successfully. More water in smarter way will also be brought for cultivation.</p>
<b>4</b>	<p data-bbox="323 1001 788 1034"><b><u>Career guidance for village youth</u></b></p> <p data-bbox="323 1075 1382 1178">We will provide knowledge to village youth with professional resource and information of professional courses like science, engineering, medical field, technology and management.</p> <p data-bbox="323 1218 1382 1285">Expected Impact: Students who are willing to get higher education they will aware of approach line for their aim.</p>
