UNNAT BHARAT ABHIYAN

Quarterly Report

October 2022 to December 2022

UNNAT BHARAT ABHIYAN

Gandhi ji's idea to develop the Indian society was based on his understanding of the society and hence based on the village system. Talking about the importance of village, he wrote in 1936, "I would say if the village perishes, India will perish too."

A group of committed faculty members from the Indian Institute of Technology (IIT) Delhi who have long worked in the areas of rural development and appropriate technology took the initiative to launch the Unnat Bharat Abhiyan. During a national workshop held at IIT Delhi in September 2014, the idea was developed through extensive consultation with representatives of a number of technical institutions, coordinators of the Rural Technology Action Group (RuTAG), nonprofit organisations, and government agencies actively engaged in rural development work. The Ministry of Rural Development, Government of India, through the Council for Advancement of People's Action and Rural Technology (CAPART), sponsored the workshop. On November 11th, 2014, the initiative was formally introduced by the Ministry of Human Resource Development (MHRD) in front of the President of India.

Vision

Unnat Bharat Abhiyan is inspired by the vision of transformational change in rural development processes by leveraging knowledge institutions to help build the architecture of an Inclusive India.

Mission

The Mission of Unnat Bharat Abhiyan is to enable higher educational institutions to work with the people of rural India in identifying development challenges and evolving appropriate solutions for accelerating sustainable growth. It also aims to create a virtuous cycle between society and an inclusive academic system by providing knowledge and practices for emerging professions and to upgrade the capabilities of both the public and the private sectors in responding to the development needs of rural India.

Goals

- To build an understanding of the development agenda within institutes of Higher Education and an institutional capacity and training relevant to national needs, especially those of rural India.
- To re-emphasize the need for field work, stake-holder interactions and design for societal objectives as the basis of higher education.
- To stress on rigorous reporting and useful outputs as central to developing new professions.
- To provide rural India and regional agencies with access to the professional resources of the institutes of higher education, especially those that have acquired academic excellence in the field of science, engineering and technology, and management.
- To improve development outcomes as a consequence of this research. To develop new professions and new processes to sustain and absorb the outcomes of research.
- To foster a new dialogue within the larger community on science, society and the environment and to develop a sense of dignity and collective destiny.

Members

Principal	Dr. N.Rajavel
Program Coordinator	Dr. A.Ezhilarasu, Dean (Research) &Head Department of Microbiology
Program Co-coordinators	Mr.M.Jeganathan Mrs.K.Brinda Mrs.R.Bharathipriya Dr.D.Muthusamy Mr.P.Srivigneshwaran Mr.P.Arochiyapelvin Mrs.M.Nithya
Technical Assistant	Mr. M.Dhivagar,

Benefits of Being a UBA Volunteer:

A UBA volunteer who contributes to the architectural design of an inclusive India by utilizing knowledge institutions to enhance rural development processes. These student volunteers would be exposed to and gain experience in the following areas if they were active members:

- A person who is socially aware
