Key Outcomes

- Increased awareness among participants about Dengue fever and its implications.
- Improved understanding of preventive measures to curb the spread of Dengue.
- Empowerment of participants to disseminate knowledge within their respective communities.

Feedback

Participant feedback was overwhelmingly positive, with many expressing gratitude for the informative sessions and practical tips provided. Some suggestions for future workshops included more hands-on activities and extended sessions on symptom recognition.

Conclusion

Dr.S.Natarajan, Associate Professor, Mechanical Engineering delivered a thank you note to the participants. The Dengue Awareness Program workshop successfully achieved its goal of disseminating crucial information about Dengue fever. The engaged participation and positive feedback indicate the workshop's effectiveness in raising awareness and equipping individuals with knowledge to combat Dengue in their communities.

Recommendations

- Organize similar workshops regularly to reinforce awareness and reach a broader audience.
- Collaborate with local health authorities and community leaders to expand the program's impact.

Acknowledgments

We extend our gratitude to The Principal and The Management Sri Venkateswara College of Engineering, UBA regional coordinating Institute - IIT Madras, Panchayat president Nemili village, speaker, participants, volunteers, and supporters whose contributions made this workshop a success.
