Event Brochure / Banner: -

Objective of the event: -

The computer quest workshop, aimed to engage students in a dynamic learning experience that nurtures their curiosity, skills, and interest in computer-related subjects, preparing them for the digital world. The Computer Quest workshop, organized by the Unnat Bharat Abhiyan Club, SKIT potential future careers in technology. It might encompass elements of learning, problem-solving, innovation, competition, education, or exploration within the realm of computers and technology for village children too.

Details (Execution): -

The Computer quest workshop typically includes hands-on learning experiences to enhance participants' skills, leveraging the organizational expertise of the Unnat Bharat Abhiyan Club. The event saw enthusiastic participation from school children and their teachers.

The "Computer quest - A Journey into Tech" was organized by UBA Club, S.K.I.T on Friday, 22 December 2023 at Government Higher Primary Sanskrit School, Malwa.The Unnat Bharat Abhiyan team played a pivotal role in organizing and coordinating the workshop so that the students could concentrate on their technical skills.

The computer quest workshop typically involved a hands-on, practical session where participants engage in learning and working with computers. Workshops was organized for beginners. Dr. Kiran Rathi, Mrs. Deepti Arela and Mr. Dinesh Kumar contributed their valuable insights during the Computer Workshop. Their aim to provide practical knowledge, problem-solving abilities, and a deeper understanding of relevant computer topics throughout the event. School children were very curious for learning many things on computer like MS Paint, Microsoft Word, MS excel. In MS Paint they had learned how to draw the figures and paint into them, also learnt how to save the file. In MS word we taught them how to write the name, we can also change **Size** and **Font** of the letters along with the basic work in MS excel. We also taught TUX Paint. Some basic knowledge about computers and softwares used in higher studies and courses. In the end we took questionnaire session about what we taught them and students with answers were motivated by giving small gifts.

The success of the Computer workshop owes much to the dedication of the Unnat Bharat Abhiyan Club, the volunteers, and the overwhelming support from the community. The student coordinators, Aravi Sharma and Arya Negi and volunteers also played a crucial role in organizing and managing the event.

In conclusion, the Computer workshop organized by the Unnat Bharat Abhiyan Club exemplifies the participants gained valuable insights into various computer applications and improved their technical skills during the workshop. By promoting the values of a collaborative learning environment, enhancing participants confidence in utilizing computer tools effectively. Moving forward, the Unnat Bharat Abhiyan Club encourages and provide the practical knowledge, problem-solving abilities, and a deeper understanding of relevant computer topics to the students.
