Link to the success story or facebook story if no success story available for now, this can be a story that printed on their website too if available in the group.

The outbreak of coronavirus disease (COVID-19) has been declared a Public Health Emergency of International Concern (PHEIC) and the virus has now spread to many regions of our country. This virus has forced us to go through this testing time when we all human beings need cooperation, compassion, fellow feelings. We, on behalf of Government General Degree college at Ranibandh, have reached to the people's need and trying to do more.

But, due to inconveniences of both, the location and communication, it has become a hard task for us. The college is situated in the most interior part of Bankura district and the inconvenience in communication has led us to work from home. In spite of the above-mentioned difficulties, we have overcome our shortcomings and reached to the local people of our adopted village BANSDHIA. We have taken the helps of our dear students and the local persons. Through them we have provided the needy people with rice, potatoes, onions, salt, pulse, and mustered oil efficiently.

Although it is a great difficulty to communicate with people over WhatsApp group, due to some unavoidable circumstances, we have been looking forward to reaching more people of the adopted villages.
