**NAME OF THE PROGRAMME OFFICER: Smt Veena Tirlapur**

**Contact No : 9480167835**

**WHETHER PART TIME/FULL TIME : Full Time**

**TOTAL NO. OF STUDENT POPULATION OF THE COLLEGE: 375 students**

Under the UBA program every Participating Institute is to adopt a cluster of five villages in consultation with the Districts Collector. We have proposed the following villages in the district (Gadag).

- 1) Hatalageri
- 2) Balaganur
- 3) Lakkundi
- 4) Betageri-Rural(Narasapur)
- 5) Halakere

Activity description:

- 1- Health and Hygiene
- 2- Health and Sanitation
- 3- Distribution of Masks
- 4- Water Conservation
- 5- Swachata Abhiyan
- 6- Evil Effects of Tobacco
- 7- Hand Wash Campaign

UBA Unit of **K L E Society's Arts and Commerce College, Gadag** Organized a Special Awareness program at Hatalageri, Balaganur, Lakkundi, Betageri-Rural (Narasapur) and Halakere village near by college in which UBA Volunteers has participated. The basic theme of program to aware villagers about the importance of education, cleaning, Health, Hygiene, Good Sanitation, Hand Hygiene, Government Schemes, and child education and how it can help to build a bright future. The program was flagged off by Principal Shri. M B. Kolavi and UBA Faculty Members.

During this program almost 38 students has actively participated, and during the team student visited to all local areas and tried to understand their way of living. In the above team special guest was Gram Panchayat Members, Elected Members, Rotary Club – Rotarians Gadag, Nehru Yuva Kendra Gadag, provides all support to our UBA Student and cooperated well.

Total expense was barred by college, the total students divided into 5 groups and each group have assigned responsibility as per the proposal. During the team first focus on all 5 villages.

### **HUMAN DEVELOPMENT:**

**Health:** The health of the village peoples are getting affected due to contamination in water in forms which they use it for various household activities. The water contamination should be stopped as a first through various awareness scheme and help people in protecting their own water resources which is mandatory for life of any human being.

**Education and culture:** The literacy level in the village is increased to a greater extent and the school inside actively make use of people to create knowledge about

education to the people. Culture is still maintained expected for new communities who occupied the village.

**Skills and Entrepreneurship:** The people living there are skilled labour mostly; if they have given opportunity to expose their skills the migration of people to the city would be stopped. The People are unaware of many entrepreneurship training by government through which they can get benefit.

### **ECONOMIC DEVELOPMENT:**

Sustainable living: Some people inside are using biogas plant, organic agriculture etc, which are some ways of sustainable living, if people of given knowledge about sustainable living with government help through loan they can lead a happy and healthy life which in turn can develop their economic status.

### **SELF-HELP GROUP:**

Women - especially in the village are major of self help groups, but they doesn't know the real value of self help group rather they use them only for getting loans from government through various ways. Proper training should be given to women's in particular so the economic development of village as a whole.

### **BASIC AMENITIES:**

Their basic amenities like provision of toilet can further be improved. Apart from all the suggestion given above we strongly believe that development of any nation strongly lie on Village, since village are the backbone of any country development so if we develop village as a whole the entire nation will be developed nation automatically
