UNNAT BHARAT ABHIYAN (UBA)

Report of Activities – (Annual Report – January 2023 - January 2024)

Unnat Bharat Abhiyan (UBA) is a program started by the Government of India, under the Ministry of Human Resource Development (MHRD) with a Vision to involve the reputed Higher Educational Institutions (HEIs) of the country in the process of indigenous development of self-sufficient and sustainable village clusters. The Objectives of UBA include engaging faculty and students of higher educational institutions in understanding rural realities, identifying and selecting existing innovative technologies, enable customization of technologies, or device implementation method for innovative solutions as per the local needs.

Mahendra Institute of Engineering and Technology (MIET) is a participant institution under UBA and it has adopted the following 5 neighboring villages in Namakkal District, Tamilnadu.

- 1. Mallasamudram (West),**
- 2. Sembampalayam,**
- 3. Palamedu,**
- 4. Senbagamadevi and**
- 5. Pillanatham.**

Students of MIET actively engage themselves with Unnat Bharat Abhiyan activities. To start with, the members of UBA conducted a door-to-door survey of about 1000 households in these five villages. The survey included collecting data on demographic and socio-economic status of the village population.

ACTIVITY: Unnat Bharat Abhiyan Village Survey and Household Survey of 5 Adopted Villages

Unnat Bharat Abhiyan (UBA) is the initiative from the central government through Indian Institute of Technology, Delhi (IIT, Delhi). This program aims at the sustainable development of rural India. The participating higher education institutions have to extend their services to the adopted villages. The institutions must develop linkage with the villages and get involved in the planning process of the village development. To understand the present status of the village, the primary task is to conduct two surveys in the selected villages. They are Village survey and Baseline household survey.

After registration and selection of the institutes under the Unnat Bharat Abhiyan, a token amount of Rs.10,000/- per village would be released under the UBA program. The funds are mainly meant for assistance for awareness, Gram Panchayat Development Plan (GPDP) study, need assessment, and contingency expenditure. Our Institute MIET, registered for UBA scheme in the UBA Portal in February 2022 and the selection of Institute was intimated to us in the month of October 2022. The token amount of Rs.50,000/- total for the selected 5 villages (Rs.10,000/- per village) was released for our Institute on 31-10-2022 and it is mentioned in that mail to complete the basic survey activities within February 2013.

MIET UBA Cell

Then, MIET UBA cell conducted the Village surveys and Baseline household surveys for 3 out of 5 Villages until now. These surveys were done by a team of 60 students and 10 faculty members from various departments, using the standard questionnaires specified by UBA (See Annexures). It was done in a planned manner with formation of several teams who were allocated different areas for survey.

Dr.M.Senthilkumar, Principal of MIET with the UBA Coordinator Dr.K.Jeyajothi, Head of the Department, Petrochemical Engineering (Mobile No: 9751480554), Dr.Saravananaraja, Placement Officer, Mahendra Educational Institutions and Professor A.Jagadeesan, Head of the Department, Mechanical Engineering, officially visited the **District Collector Office, Namakkal** to intimate the selection of our Institute under UBA Program on 16-11-2022. They met the Collector and other officials in the office and handover the letter of intimation to seek permission to facilitate us for meeting of Project Coordinator UBA (Dr.K.Jeyajothi) of our Institute with all concerned

stakeholders like Gram Panchayats, BDOs, District Development Authority, etc,. Then based on the meeting, the information letter from the District Collector Office, Namakkal has been sent to the Block Development Officer, Mallasamudram on 05-12-2022, to give support for us to take survey in the above said villages.

1. Village Survey and Baseline Household Survey at Senbagamadevi Village

(a) Preliminary works for Inauguration of UBA:

Then Our Principal and Professors team went to the Mallasamudram Municipal office on 05-12-2022 and had a meeting with BDO and other Panchayath officials. The village level survey details were collected from the Panchayath Secretary, Village Administrative Officer and Block Development officer of the targeted villages. In the meeting, the date for baseline house hold survey was decided and the village survey formality was completed.

Similarly on 08-12-2022, the team visited to Senbagamadevi Panchayath office to complete village survey formalities and to finalise the household survey date. On our request, the village BDOs and Panchayath President permitted us to conduct the inauguration program on 10-12-2022 followed by baseline household surveys at Senbagamadevi village.

(b) Inauguration of UBA in Senbagamadevi Village:

On 10th December 2022, staff team along with student volunteers assembled at 10.00 AM in Senbagamadevi Village Panchayath Office. Dr.M.Senthilkumar, Principal of MIET gave an overview of the project by mentioning the main objectives and the expected outcomes of the Inaugural Meeting and the project. Dr.K.Jeyajothi, UBA Coordinator introduced his team members.

(c) First phase of household survey:

The first phase of household survey started immediately after the inaugural event on 10-12-2022. The team was provided with refreshments and lunch on that day. Students were divided and they went to take survey in all the houses in that village. The students groups started interviewing households in different groups in different places of the village. The response of the households was good and supportive. Students took average of 15 minutes to complete one household survey while the target was 10 minutes.

Students enjoyed the survey job and that was a great learning from planning, logistics and the art of interviewing perspective. Principal, UBA coordinator and faculty members of MIET actively supported and encouraged the student volunteers of UBA.

Senbagamadevi Village Panchayath Office and volunteers visiting households for the survey

(d) Second phase of household survey:

The second phase of household survey was conducted on 04-03-2023. The team was provided with refreshments and lunch on that day. Students were divided and they went to take survey in all the houses in that village. The students groups started interviewing households in different groups in different places of the village. The response of the households was good and supportive. Students took average of 15 minutes to complete one household survey. Students enjoyed the survey job and that was a great learning from planning, logistics and the art of interviewing perspective. Principal, UBA coordinator and faculty members of MIET actively supported and encouraged the student volunteers of UBA.

(e) Third phase of household survey:

The third phase of household survey was conducted on 18-03-2023. The team was provided with refreshments and lunch on that day. Students were divided and they went to take survey in all the houses in that village. The students groups started interviewing households in different groups in different places of the village. The response of the households was good and supportive. Students took average of 15 minutes to complete one household survey. Students enjoyed the survey job and that was a great learning from planning, logistics and the art of interviewing perspective. Principal, UBA coordinator and faculty members of MIET actively supported and encouraged the student volunteers of UBA.

2. Inauguration of UBA in Mallasamudram West Village

(a) Inauguration:

On 08-12-2022, the team visited to Mallasamudram West Panchayath office to complete village survey and to finalise the household survey date. On our request, the village BDOs and Panchayath President permitted us to conduct the inauguration program on 12-12-2022 followed by baseline household surveys at Mallasamudram West village.

(b) Introduction of Post Office Savings Scheme and Baseline Household survey:

On 24th December 2022, staff team along with student volunteers assembled at 10.00 AM in Mallasamudram West Village Panchayath Office. Dr. M.Senthilkumar, Principal of MIET gave an overview of the project by mentioning the main objectives and the expected outcomes of the Inaugural Meeting and the project. Dr. K.Jeyajothi, UBA Coordinator introduced his team members.

Unnat Bharat Abhiyan Cell of Mahendra Institute of Engineering and Technology (MIET)

and Indian Postal Department (Vadugapalayam Post Office) jointly conducted Awareness camp on Postal Savings Schemes and Sukanya Samridhhi Account (SSA) in adopted villages of Mallasamudram (West) panchayat on 24-12-2022 after the inauguration of UBA.

Post Master and Assistant Post Master of Vadugapalayam Post Office addressed the village people about the importance of savings and explained the various saving schemes in postal department. They arranged facilities to open saving account for those who opt for it. Village President and volunteers from the village people supported for organizing the camp.

(c) First phase of household survey:

The first phase of household survey started immediately after the event on 24-12-2022. The team was provided with refreshments and lunch on that day. Students were divided and they went to take survey in all the houses in that village. The students groups started interviewing households in different groups in different places of the village. The response of the households was good and supportive.

Mallasamudram West Village Panchayath Office and volunteers visiting households for the survey

(d) Second phase of household survey:

The second phase of household survey was conducted on 01-04-2023. The team was provided with refreshments and lunch on that day. Students were divided and they went to take survey in all the houses in that village. The students groups started interviewing households in different groups in different places of the village. The response of the households was good and supportive. Students took average of 15 minutes to complete one household survey. Students enjoyed the survey job and that was a great learning from planning, logistics and the art of interviewing perspective. Principal, UBA coordinator and faculty members of MIET actively supported and encouraged the student volunteers of UBA.

(e) Third phase of household survey:

The third phase of household survey was conducted on 18-04-2023. The team was provided with refreshments and lunch on that day. Students were divided and they went to take survey in all the houses in that village. The students groups started interviewing households in different groups in different places of the village. The response of the households was good and supportive. Students took average of 15 minutes to complete one household survey. Students enjoyed the survey job and that was a great learning from planning, logistics and the art of interviewing perspective. Principal, UBA coordinator and faculty members of MIET actively supported and encouraged the student volunteers of UBA.

3. Inauguration of UBA in in Palamedu Village

(a) Inauguration:

On 08-12-2022, the team visited to Palamedu Panchayath office to complete village survey and to finalise the household survey date. On our request, the village BDOs and Panchayath President permitted us to conduct the inauguration program on 13-01-2023 followed by first phase of baseline household surveys at Palamedu village.

(b) Pongal celebration and Baseline Household survey:

On 13th January 2023, staff team along with student volunteers assembled at 10.00 AM in Palamedu Village Panchayath Office. Dr. M.Senthilkumar, Principal of MIET gave an overview of the project by mentioning the main objectives and the expected outcomes of the Inaugural Meeting and the project. Dr. K.Jeyajothi, UBA Coordinator introduced his team members.

Mahendra Institute of Engineering and Technology in coordination with Palamedu village jointly organize samathuva pongal on 13-01-2023. Staff members and students from MIET and volunteers from village participated in the event. Mr. Elayakaranan, President of Palamedu village panchayat, and Dr. M.Senthilkumar, Principal, MIET were participated in the event.

(c) First phase of household survey:

The first phase of household survey started immediately after the inaugural event on 13-01-2023. The team was provided with refreshments and lunch on that day. Students were divided and they went to take survey in all the houses in that village. The students groups started interviewing households in different groups in different places of the village. The response of the households was good and supportive.

Palamedu Village Panchayath Office and volunteers visiting households for the survey

(d) Second phase of household survey:

The second phase of household survey was conducted on 29-04-2023. The team was provided with refreshments and lunch on that day. Students were divided and they went to take survey in all the houses in that village. The students groups started interviewing households in different groups in different places of the village. The response of the households was good and supportive. Students took average of 15 minutes to complete one household survey. Students enjoyed the survey job and that was a great learning from planning, logistics and the art of interviewing perspective. Principal, UBA coordinator and faculty members of MIET actively supported and encouraged the student volunteers of UBA.

(e) Third phase of household survey:

The third phase of household survey was conducted on 03-05-2023. The team was provided with refreshments and lunch on that day. Students were divided and they went to take survey in all the houses in that village. The students groups started interviewing households in different groups in different places of the village. The response of the households was good and supportive. Students took average of 15 minutes to complete one household survey. Students enjoyed the survey job and that was a great learning from planning, logistics and the art of interviewing perspective. Principal, UBA coordinator and faculty members of MIET actively supported and encouraged the student volunteers of UBA.

4. Inauguration of UBA in Sembampalayam Village

(a) Preliminary works for Inauguration of UBA:

On 09-12-2022, the team visited to Sembampalayam Panchayath office to complete village survey and to finalise the household survey date. On our request, the village BDOs and Panchayath President permitted us to conduct the inauguration program on 11-02-2023 followed by first phase of baseline household surveys at Sembampalayam village.

(b) Inauguration of UBA in Sembampalayam Village:

On 11th February 2023, staff team along with student volunteers assembled at 10.00 AM in Sembampalayam Village Panchayath Office. Dr.M.Senthilkumar, Principal of MIET gave an overview of the project by mentioning the main objectives and the expected outcomes of the Inaugural Meeting and the project. Dr.K.Jeyajothi, UBA Coordinator introduced his team members.

(c) First phase of household survey:

The first phase of household survey started immediately after the inaugural event on 11-02-2023. The team was provided with refreshments and lunch on that day. Students were divided and they went to take survey in all the houses in that village. The students groups started interviewing households in different groups in different places of the village. The response of the households was good and supportive. Students took average of 15 minutes to complete one household survey while the target was 10 minutes.

Students enjoyed the survey job and that was a great learning from planning, logistics and the art of interviewing perspective. Principal, UBA coordinator and faculty members of MIET actively supported and encouraged the student volunteers of UBA.

(d) Second phase of household survey:

The second phase of household survey was conducted on 16-05-2023. The team was provided with refreshments and lunch on that day. Students were divided and they went to take survey in all the houses in that village. The students groups started interviewing households in different groups in different places of the village. The response of the households was good and supportive. Students took average of 15 minutes to complete one household survey. Students enjoyed the survey job and that was a great learning from planning, logistics and the art of interviewing perspective. Principal, UBA coordinator and faculty members of MIET actively supported and encouraged the student volunteers of UBA.

(e) Third phase of household survey:

The third phase of household survey was conducted on 27-05-2023. The team was provided with refreshments and lunch on that day. Students were divided and they went to take survey in all the houses in that village. The students groups started interviewing households in different groups in different places of the village. The response of the households was good and supportive. Students took average of 15 minutes to complete one household survey. Students enjoyed the survey job and that was a great learning from planning, logistics and the art of interviewing perspective. Principal, UBA coordinator and faculty members of MIET actively supported and encouraged the student volunteers of UBA.

5. Inauguration of UBA in Pillanatham Village

(a) Preliminary works for Inauguration of UBA:

On 09-12-2022, the team visited to Pillanatham Panchayath office to complete village survey and to finalise the household survey date. On our request, the village BDOs and Panchayath President permitted us to conduct the inauguration program on 25-02-2023 followed by first phase of baseline household surveys at Pillanatham village.

(b) Inauguration of UBA in Pillanatham Village:

On 25th February 2023, staff team along with student volunteers assembled at 10.00 AM in Pillanatham Village Panchayath Office. Dr.M.Senthilkumar, Principal of MIET gave an overview of the project by mentioning the main objectives and the expected outcomes of the Inaugural Meeting and the project. Dr.K.Jeyajothi, UBA Coordinator introduced his team members.

(c) First phase of household survey:

The first phase of household survey started immediately after the inaugural event on 25-02-2023. The team was provided with refreshments and lunch on that day. Students were divided and they went to take survey in all the houses in that village. The students groups started interviewing households in different groups in different places of the village. The response of the households was good and supportive. Students took average of 15 minutes to complete one household survey while the target was 10 minutes.

Students enjoyed the survey job and that was a great learning from planning, logistics and the art of interviewing perspective. Principal, UBA coordinator and faculty members of MIET actively supported and encouraged the student volunteers of UBA.

(d) Second phase of household survey:

The second phase of household survey was conducted on 03-06-2023. The team was provided with refreshments and lunch on that day. Students were divided and they went to take survey in all the houses in that village. The students groups started interviewing households in different groups in different places of the village. The response of the households was good and supportive. Students took average of 15 minutes to complete one household survey. Students enjoyed the survey job and that was a great learning from planning, logistics and the art of interviewing perspective. Principal, UBA coordinator and faculty members of MIET actively supported and encouraged the student volunteers of UBA.

(e) Third phase of household survey:

The third phase of household survey was conducted on 17-06-2023. The team was provided with refreshments and lunch on that day. Students were divided and they went to take survey in all the houses in that village. The students groups started interviewing households in different groups in different places of the village. The response of the households was good and supportive. Students took average of 15 minutes to complete one household survey. Students enjoyed the survey job and that was a great learning from planning, logistics and the art of interviewing perspective. Principal, UBA coordinator and faculty members of MIET actively supported and encouraged the student volunteers of UBA.

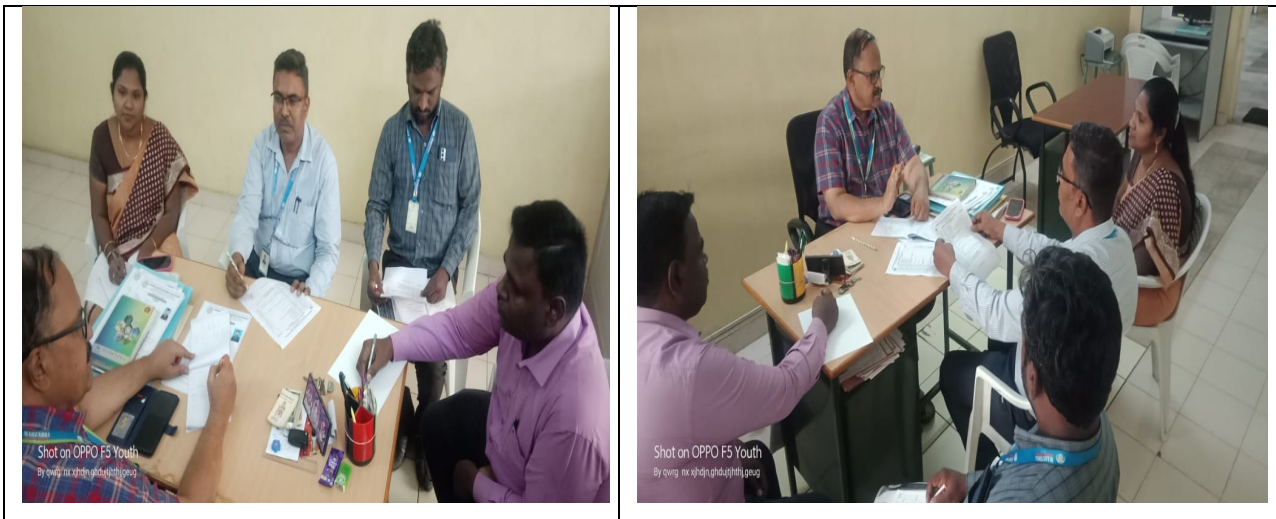

REPORT OF ACTIVITIES:

1. Title of the Activity: UBA Cell committee members meeting for Village Panchayat Development plan

Need of the Activity: To provide guidelines and knowledge about the preparation of Village Panchayat Development Plan to UBA cell committee members and to provide awareness about the role of the students in implementation of village development scheme.

Brief Description (Need/Impact/Action/Picture (if any)):

UBA Cell committee members meeting, for preparation of Village Panchayat Development Plan, was conducted to the staff members on 07.12.2022 at 11.30am in the coordinator room by UBA Cell of Mahendra Institute of Engineering and Technology (MIET). Dr. M.Senthilkumar, Principal, MIET and Dr. K.Jeyajothi, HOD/Petro and coordinator of UBA, were the resource persons. They addressed the staff members about how to support in the implementation of village development scheme in selected villages adopted under by UBA and provided guidelines for preparation of Village Panchayat Development Plan.

2. Title of the Activity: UBA Cell Orientation program for Village Panchayat Development plan

Need of the Activity: To provide guidelines and knowledge about the preparation of Village Panchayat Development Plan and to provide awareness about the role of the students in implementation of village development scheme.

Brief Description (Need/Impact/Action/Picture (if any)):

UBA Cell Orientation program, for preparation of Village Panchayat Development Plan, was conducted to the students on 09.12.2022 at 02.30pm in the seminar hall by UBA Cell of Mahendra Institute of Engineering and Technology (MIET). Dr.M.Senthilkumar, Principal, MIET and Dr.K.Jeyajothi, HOD/Petro and coordinator of UBA, were the resource persons. They addressed the students about how to support in the implementation of village development scheme in selected villages adopted under by UBA and provided guidelines for preparation of Village Panchayat Development Plan.

3. Title of the Activity: Awareness Camp on Postal Savings Schemes

Need of the Activity: To create saving habits among the farmers and village people to meet unforeseen situations and to explain about the Sukanya Samriddhi Account(SSA) for girl children in the adopted villages.

Brief Description (Need/Impact/Action/Picture (if any)):

Unnat Bharat Abhiyan Cell of Mahendra Institute of Engineering and Technology (MIET) and Indian Postal Department (Vadugapalayam Post Office) jointly conducted Awareness camp on Postal Savings Schemes and Sukanya Samriddhi Account (SSA) in adopted villages of Mallasamudram (West) panchayat on 24-12-2022.

Post Master and Assistant Post Master of Vadugapalayam Post Office addressed the village people about the importance of savings and explained the various saving schemes in postal department. They arranged facilities to open saving account for those who opt for it. Village President and volunteers from the village people supported for organizing the camp.

4. Title of the Activity: Samathuva Pongal by MIET with Palamedu village people

Need of the Activity: Samathuva Pongal was celebrated featuring a sense of equality among the students. It is a celebration when all students and staff members of different diversities participate.

Brief Description (Need/Impact/Action/Picture (if any)):

Every year, the festival of harvest, to thank the God Sun, is celebrated. The occasion is named as Pongal in all the hindu communities. But towards achieving religious harmony, the college celebrates “Samathuva Pongal” featuring a sense of equality among the students. It is a celebration when all students and staff members of different diversities participate.

Mahendra Institute of Engineering and Technology in coordination with Palamedu village jointly organize samathuva pongal on 13-01-2023. Staff members and students from MIET and volunteers from village participated in the event. Mr. Elayakaranan, President of Palamedu village panchayat, and Dr. M.Senthilkumar, Principal, MIET were participated in the event.

5. Title of the Activity: Gram Sabha Meeting at Mallasamudram (West) Village.

Need of the Activity: It is important to attend Gram Sabha meetings because it is the only way to participate in the proceedings of various plans discussed in the meetings. It will be very helpful to know about the village.

Brief Description (Need/Impact/Action/Picture (if any)):

Generally, two meetings of Gram Sabha are held every year. In these meetings, the Gram Sabha as the general body of the people hears the annual statement of accounts, audit or administrative report of panchayats. Further Reading: Panchayati Raj in India. The main functions of Gram Sabha are to review the annual accounts of Panchayat, discuss the audit and administrative reports and the tax proposals of its Panchayat and accept community service, voluntary labour and schemes for Panchayat.

The Gram Panchayat Sabha was conducted on 26.01.2023 around 11.00 A.M. at Panchayat Middle School, Mallasamudram (West) Village, Namakkal District. The Gram Panchayat Sabha was headed by Mr. S.E.Raja, Panchayat President along with Mr. Sivakumar, Panchayat Clerk. Most of the villagers attended the meeting. Dr.K.Jeyajothi, Coordinator, UBA and Prof. A.Jagadeesan, HOD/Mechanical attended the meeting.

6. Title of the Activity: Swachh Bharat Mission Campaign in Sembampalayam Village - School cleaning and Painting.

Date of the Activity: 05-07-2023

Need of the Activity: Create awareness among communities towards sanitation and cleanliness. To bring about behavioral changes in the people towards sanitation and hygiene. Motivating the communities for adopting a proper sanitation model for better health and life.

Brief Description (Need/Impact/Action/Picture (if any)): To accelerate the efforts to achieve universal sanitation coverage and to put the focus on sanitation, the Prime Minister of India had launched the Swachh Bharat Mission on 2nd October 2014. The Swachh Bharat Revolution looks at how India led the largest 'jan andolan' (people's movement) in the world to make the impossible possible – with the Mission's success resting on four key pillars: Political Leadership, Public Financing, Partnerships and People's Participation.

The goals of cleanliness are health, beauty, absence of offensive odour and to avoid the spreading of dirt and contaminants to oneself and others. With the help of cleanliness, we can keep our physical and mental health clean, which will make us feel good.

This mission was to clean India and remove its dirt and dust. India at that time became very much unhygienic and garbage was thrown here and there by people. So, this mission was a need for this country. Its conclusion was this that - due to this people understood the importance of hygiene.

Event: Swatch Bharath Mission Campaign – School cleaning and Painting

7. Title of the Activity: Swachh Bharat Mission Campaign in Sembampalayam Village - Cleaning and restoring the ponds and lakes.

Date of the Activity: 06-07-2023

Need of the Activity: Ponds are an important part of the ecosystem, and their health can impact the surrounding environment. Regular cleaning and maintenance can help preserve water quality by preventing harmful chemicals and pollutants from building up and seeping into the ground or nearby bodies of water.

Brief Description (Need/Impact/Action/Picture (if any)): Rivers and lakes are important resources for any city or area because they offer a variety of economic advantages such hydroelectric power, irrigation, transportation, recreation, and fishing.

To clean a pond, fish out string algae, treat the water with hydrogen peroxide or barley straw, maintain the pond with aeration, and remove plant debris with a pond vacuum or by pumping out the water.

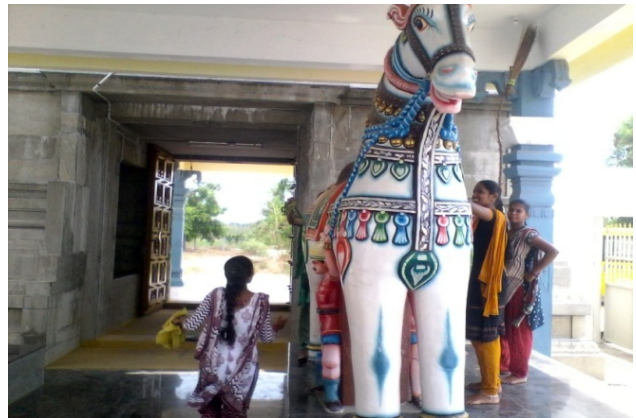

8. Title of the Activity: Temple cleaning in Pillanatham village

Date of the Activity: 12-07-2023

Need of the Activity: It is extremely important to keep the temple clean. If not done regularly, the accumulated grime just makes the room unhygienic and not at all a place for the idols. So wipe it clean at the end of every month with some water spray and then with a dry cloth.

Brief Description (Need/Impact/Action/Picture (if any)): The benefits of temple cleaning for the next life are that it will bring about the kind of rebirth where we experience enjoyment and happiness. The ultimate benefit of cleaning the temple in this life is that it clears the clouded mind.

"Cleanliness is next to Godliness," is a wise saying that refers to the importance of cleanliness in a person's life.

9. Report of Activities:

Title of the Activity: Health Awareness Camp at Pillanatham on 14-07-2023.

Need of the Activity:

As we all know, "Health is Wealth". Many factors influence people to acquire diseases and certain medical conditions. They need to be educated about health and diseases through awareness programs. They should know what to eat, what not to eat, how to be fit through regular exercise, proper diet and be healthy. Everyone must be aware of required annual screening tests they need to undergo, based on their age, gender and health conditions. All this information should be available to people in rural areas.

Raise health awareness among the community and teach them to deal with communicable and non-communicable. Register rare and severe cases and refer them to specialized centers. Evaluate the living conditions and determine the obstacles and challenges to work on solving their problems.

During the health camp, a range of services like routine medical check-up, haemoglobin test, sugar test, height-weight, blood pressure check-up, medicine distribution were provided under the curative services.

Brief Description (Need/Impact/Action/Picture (if any)):

The main objective of a medical camp is to provide initial care to people in life-threatening conditions which reflect the unique strengths and goals of medical ethics. Other objectives are as stated below: -Provide free and high-quality medical services and full body complete medical checkup for the poor population.

HEALTH AWARENESS & EDUCATION

To ensure appropriate information about mental and physical health and identifying health deficiencies which may involve food desert issues, the lack of healthy food in our communities, activities transportation issues, etc.

Event: Health Awareness Camp

Special Camp- Health Awareness Programme and Health Education

10. Title of the Activity: Campus Tree Plantation on 18-07-2023.

Need of the Activity:

To reduce temperature and increase humidity. To reduce noise pollution to the neighboring household population. To reduce the impacts of air pollution and dust as trees and shrubs are known to be natural sink for air pollutants.

Brief Description (Need/Impact/Action/Picture (if any)):

Tree Plantation programme was organized at our College campus, through National Service Scheme Unit on 18-07-2023. The students of 1st year students actively participated in the programme. Principal, Dept HOD's, faculty, NSS Volunteers, students are plant saplings in our college premises. Our faculty had also explained about the trees and the importance of tree plantation.

Firstly, we started planting saplings in the garden of our college campus and after that, we planted saplings in the nearby local areas of our college.

Benefits of tree plantation

Trees give off oxygen that we need to breathe. Trees reduce the amount of storm water runoff, which reduces erosion and pollution in our waterways and may reduce the effects of flooding. Many species of wildlife depend on trees for habitat. Trees provide food, protection, and homes for many birds and mammals.

11. Title of the Activity: Gram Sabha Meeting at Melmugam Village, Mallasamudram.

Date of the Activity: 26-01-2024

Need of the Activity: It is important to attend Gram Sabha meetings because it is the only way to participate in the proceedings of various plans discussed in the meetings. It will be very helpful to know about the village.

Brief Description (Need/Impact/Action/Picture (if any)):

Generally, two meetings of Gram Sabha are held every year. In these meetings, the Gram Sabha as the general body of the people hears the annual statement of accounts, audit or administrative report of panchayats. Further Reading: Panchayati Raj in India. The main functions of Gram Sabha are to review the annual accounts of Panchayat, discuss the audit and administrative reports and the tax proposals of its Panchayat and accept community service, voluntary labour and schemes for Panchayat.

The Gram Panchayat Sabha was conducted on 26.01.2024 around 11.00 A.M. at Melmugam Village near Mallasamudram, Namakkal District. The Gram Panchayat Sabha was headed by Mr. S.E.Raja, Panchayat President along with Mr. Sivakumar, Panchayat Clerk. Most of the villagers attended the meeting. Dr.K.Jeyajothi, Coordinator, UBA and 5 staff members attended the meeting.
