In the Pudukottai Village we visited the primary school. Totally 27 students involved in this activity . Mrs. Bakkiyam the Headmistress of the school , she helped us to do this activity in the school.

The awareness is given to all the students about the Good touch and bad touch. Touch plays an important role in a child's life.

- Start conversations at an early age.
- Encourage open communication.
- Teach children what to do if someone tries to use bad touch.

- Teach children who they can approach if they are in an uncomfortable situation or are in appropriately touch.
- The importance of dialing 911 if there is an emergency.
- The children can go to their parent, teacher, doctor or police officer if they feel unsafe.
 - Teach them to fight back.

CONCLUSION:

“YOUR BODY IS YOUR OWN, AND YOU HAVE THE RIGHT TO SAY NO TO ANY TOUCH THAT FEELS WRONG”

By giving clear explanation and critical thinking about their life. Teaching them the difference between good touch and bad touch puts them in a better position of stopping such incidents from happening.

The programme was conducted around 11:15 AM to 12:00 AM. The trainee itself prepared for the community organization programme and presented for the school students. The programme was attended by the students of 6th standard, 7th standard, 8th standard. The students attended the programme was around **50 members**.

The trainee first said that you should give yourself enough time to study by making a study schedule and do not leave anything for the last minute. Then in a note or paper write down how many exams you have, how many pages you have to learn and how many days left. Then accordingly you organize your study timetable. And you should make sure that your study space is organized well without any disturbance. You should ensure that sufficient bright light is provided and there should not be any distract materials and make sure that the place is silence. Then the trainee explained them about the visual way of studying helps more. Then while studying you should take notes that you can understood. So that during exam time it could be very helpful for your preparation and you should also revise the previous exams question papers.

Then after learning you can explain to your friends because it could help your friends and it will be benefit for you also to keep in the memory. And you can also organize study groups with your friends. But it should be only for positive study use. Then while studying you can take breaks, snacks by taking healthy food which is good for your health and for your brain. Then you should take plenty of water to drink. Then the trainee and co-trainee conducted some activities. Then the trainee explained how to present the exam. First you should see the question paper properly and then you should schedule timings for each question in each section and again read over each questions carefully. Then present your paper neatly by using blue and black pens to write. Before this you all should be in very peaceful manner. So, that you can present it well and you should go to bed early before your exams night and you should wake up early morning and revise everything that you had prepared for your exam. Then everyone thanked the trainee and co-trainee that the students had gained some knowledge.

TITLE: AWARENESS PROGRAMME ON UNDERWEIGHT CONCERNS IN KIDS

The programme was conducted around 11:00 AM to 11:45 AM. The trainee itself prepared for the community organization programme and presented for the parents of the panchayat. The community organization programme was attended by 20 members.

The trainee and co-trainee gathered the parents of the childrens and started the community organization programme by playing the video. The video was on the underweight concern in kids by Dr. Sivaraman. In the video he talks about the underweight and health of kids. He says there is no tonic for the kids to increase their weight suddenly and before thinking of increasing the weight of the kid. We should first know why the weight is not increasing. We can know by going to hospital and by ourselves by observing them properly. During the birth time itself the baby should be 3kgs. If the child is born before 10 months the kid will be in low weight.

When the child reaches 1year of age the weight should be 9 to 10 kgs and there will be metabolic growth and the child in the underweight should be taken care by giving them healthy food. And he says the kid should take healthy food like: Ragi, Coconut milk, Nendran bananas (Nethrampalam), Grains, Green gram, Health mix, Groundnut, Bananas. We should not give more fiber content food for the kids. After that the trainee explained what are the impact of underweight. Weakened Immune System, Delayed growth and development, Nutritional deficiencies, Bone health, Emotional and Psychological effects. After that explained the stages the underweight: Underweight (Mild), Underweight (Moderate), Underweight (Severe), Malnutrition's, Wasting, Stunted growth.

After the community organization programme all of the parents thanked the trainee for the useful programme. And they said that it will be very useful for them and for their childrens to be in the correct weight.

Under the law cast activity village panchayat development programme, social work student of sacred heart college organized people aggregation and entrepreneurship awareness program in T.Krishnaporam panchayat on Thursday (15/02/2024) this program was conducted by the panchayat with the objective of benefiting the people through the care provided under LSDG to increase their income

Place : T.Krishnaporam

Chief guest:Mr.G.sandanam (District resourceperson)

In order to get a subsidy from the government, he has to pay monthly installments to get a subsidy from the government, to buy something through handicrafts, self-employment, or livestock, so that he can get an entrepreneur, so it is a very big opportunity for people to increase their income. People have taken on excessive debt and this has changed the livelihood of many people.

Around 42 members of the public participated in this awareness program and one of the special guests was Mr. Sanjayrao, the organizer of the program, and the head of the Self Help Group also participated. The community organization program titled "Discipline and Study Tips for Primary School Children" aimed to provide guidance and support to young students in developing effective study habits and maintaining discipline in their daily lives. The program included interactive sessions, workshops, and activities designed to engage and inspire the children.

During the program, various important aspects of discipline and study skills were discussed. The sessions emphasized the importance of time management, organization, and focus in achieving academic success. The children were encouraged to set goals and prioritize their tasks to make the most of their study time.

Overall, the program aimed to instill discipline, study skills, and a positive mindset in the young students, laying a strong foundation for their future academic and personal growth.

Key Learnings:

1. Importance of Time Management: The program highlighted the significance of managing time effectively to balance study, play, and other activities. Teaching the children how to create schedules and prioritize tasks could help them stay organized and make the most of their time.
2. Development of Study Skills: The sessions emphasized the importance of developing effective study habits, such as active learning, note-taking, and problem-solving techniques. The children learned strategies that could improve their understanding and retention of information.
3. Individual Learning Styles: The program introduced the concept of different learning styles and encouraged the children to explore their own preferences. Recognizing that everyone learns differently, the sessions taught them to adapt their study methods accordingly for better results.

4. Fostering Discipline: Engaging activities and games in the program promoted discipline, teamwork, and positive behavior. The children learned the value of self-discipline and cooperation, which are essential qualities in achieving personal and academic goals.

5. Promoting a Love for Learning: By making the learning process enjoyable and interactive, the program aimed to develop a lifelong love for education among the children. This positive attitude towards learning can greatly contribute to their overall academic success and personal growth.

Respected Sir,

Sub: Seeking permission for organizing free medical camp at Forest Higher secondary School, Puthurnadu, Jawadhi hills.

Greeting from the PG & Research Department of Social work, Sacred Heart College, Tirupattur. The Department of Social Work was established in the year 1979 and it's the 43 years of service in the community & educating the students in professional social work.

Our students **Mr. Elavarasan S** and **Mr. Mozhivanan A** are willing to organize free medical camp at Puthurnadu, Jawadhi hills. We have already approached the **Assistant Director of Directorate of Public Health and Preventive Medicine** with regard to assisting them in organizing the medical camp. They have approved the same.

We are in need of a bigger space for organizing this camp effectively. So, we seek your kind support for this work done with Tribal community. We will coordinate, take responsibility in carefully using this opportunity to help the Tribals. Can you kindly grant permission for using Forest Higher Secondary School in Puthurnadu on 17.02.2024 – Saturday for medical camp. It will be of great help to tribal and students who are in the school. We are indeed very grateful to you for your support & guidance.

Thank you

Yours Sincerely

J. Andrews Raja
