### REPORT ON UNNAT BHARAT ABHIYAN ACTIVITY PROGRAMME

<b>Activity Title:</b>	<b>Helping local schools to achieve good result and enhance their enrolment in Higher/Technical/Vocational education.</b>		
<b>Students participated in the event</b>	Parmekar Shubham Rajendra, Rabikant Chaudhary Kalwar, Sangeetha Thapa, Piyush Kumar, Vamsha Attavar	<b>Number of student participated in the event</b>	:06
<b>Beneficiaries Village Name</b>	Somshettyhalli,	<b>Benefitted peoples</b>	:Government School Students Somshettyhalli, Village.
<b>Location:</b>	Somshettyhalli, Karnataka,Bangalore North-560090.	<b>Date between:</b>	15-01-2024 to 03-02-2024

#### **Brief Summary of the activity:**

This theme addresses how well students communicate with one another in class. Classes where students have opportunities to communicate with each other help students effectively construct their knowledge. By emphasizing the collaborative and cooperative nature of scientific work, students share responsibility for learning with each other, discuss divergent understandings, and shape the direction of the class. The Pedagogy in Action module on Cooperative Learning is a great place to learn more about structuring student-student interactions both in and out of the classroom. The Cutting Edge teaching method module on using Concept Tests in the classroom also has tips for integrating think-pair-share activities into even large classrooms.

Vocational education equips individuals with specific skills required by industries. This makes them more employable. This leads to reduced unemployment rates and improves the overall labor market efficiency. A skilled workforce contributes to economic growth.

Career guidance helps students in choosing careers that suit their interests, aptitude and abilities. It enhances their confidence and empowers them to make decisions regarding the selection of courses after completion of their school education or graduation.

### Outcome of the activity:

Vocational education is education that prepares people for a skilled craft as an artisan, trade as a tradesperson, or work as a technician. Vocational education can also be seen as that type of education given to an individual to prepare that individual to be gainfully employed or self employed with requisite skill.

By emphasizing the collaborative and cooperative nature of scientific work, students share responsibility for learning with each other, discuss divergent understandings, and shape the direction of the class. The Pedagogy in Action module on Cooperative Learning is a great place to learn more about structuring student-student interactions both in and out of the classroom. The Cutting Edge teaching method module on using Concept Tests in the classroom also has tips for integrating think-pair-share activities into even large classrooms.

Vocational education equips individuals with specific skills required by industries. This makes them more employable. This leads to reduced unemployment rates and improves the overall labor market efficiency. A skilled workforce contributes to economic growth. Career guidance helps students in choosing careers that suit their interests, aptitude and abilities.
