PowerPoint Slide Show - Healthy Aging - PowerPoint

Demographic transition

- Aging of the population is a major phenomenon in the present-day
- Though the phenomenon has a universal character
- It occurs in various countries at different points in time
- Aging is a phenomenon already occurred in developed countries in the latter half of the twentieth century
- A similar situation is emerging in the developing countries

The five stages of the demographic transition

| | Stage 1 | Stage 2 | Stage 3 | Stage 4 | Stage 5 |
|--------------------|-----------------------------|--------------------|-----------------------|-------------------------|-------------|
| Birth rate | High | High | Falling | Low | Very low |
| Death rate | High | Falling rapidly | Falling slowly | Low | Very low |
| Population change | Stable or slowly increasing | Rapidly increasing | Increased then stable | Falling and then stable | Life change |
| Population pyramid | | | | | |
