

UNNAT BHARAT ABHIYAN

Institute/Organization Name:

Shrimati Indira Gandhi College, Tiruchirappalli-620 002 (AISHE Code-C-35828)

Field Data Collection Report

Financial Year: 2023-2024

Quarter: Q2 (Apr-Jun)

UBA Coordinator's Name: Dr. N. Hemalatha

Email ID: uba2k23sigc@gmail.com

Mobile No: 9443821549

Adopted Village: Seshasamudram

Objectives of the Survey:

Collect household-level data to understand socio-economic conditions.

Gather village-level data from the village office to evaluate infrastructure and resources.

Identify challenges and prioritize areas for interventions.

Survey Details

Date of Data Collection:

Household Survey: 10th April 2024 – 11th April 2024

Village Survey Data Collection: 17th April 2024

Survey Methodology:

Household Survey: Door-to-door interviews using a structured questionnaire for 20 households.

Village Survey: Secondary data collection from the village office records and discussions with officials.

Participants:

Total Households Surveyed: 20

Village Officials Engaged: 1

Key Findings

Household Survey:

Demographics:

Average family size: 4 members.

Female-headed households: 10%.

Livelihood and Income:

Primary occupation: Agriculture (60%), daily wage labor (30%), small businesses (10%).

Monthly average income per household: ₹4,500 – ₹6,500.

Education:

Literacy rate: 65%.

Barriers: Lack of educational infrastructure and economic constraints.

Health and Sanitation:

50% of households reported using open spaces due to lack of toilets.

Common health issues: Waterborne diseases during monsoons.

Village Survey (Data from Village Office):

Infrastructure:

Water Supply: Two borewells, one of which is non-functional.

Roads: Paved roads only cover the main village area; interior roads are unpaved.

Electricity: Available, but frequent power cuts reported.

Community Resources:

Educational Facilities: One primary school.

Healthcare: No healthcare facilities in the village; the nearest primary health center is 5 km away.

Markets: Weekly market held on Sundays for essentials.

Natural Resources:

Land Use: Primarily agricultural with some unused wasteland.

Irrigation: Only 20% of farmland is irrigated; others rely on rainfall.

Community Insights

Key Issues Identified:

Need for improved water and sanitation facilities.

Lack of a healthcare facility within the village.

Limited employment opportunities beyond agriculture and labor.

Strengths of the Village:

Fertile agricultural land with potential for crop diversification.

Strong community spirit and willingness to participate in development activities.

Recommendations for Interventions:

Water Supply & Sanitation:

Repair and maintain the non-functional borewell.

Introduce programs to build household toilets.

Healthcare:

Advocate for a mobile healthcare unit or regular health camps.

Employment Opportunities:

Organize skill development programs for women and youth.

Promote small-scale industries or self-help group initiatives.

Education:

Improve access to secondary schools through transport facilities or scholarships.

Next Steps:

Share findings with the village panchayat and local authorities for immediate action.

Design focused interventions for water, sanitation, and employment generation.

Schedule a follow-up visit to track progress and gather feedback.
