

Name of Event: “Awareness Program on Plant Diseases under Unnat Bharat Abhiyan”

Date of Event: 14-3-2026

Organized by: School of Agriculture

Event Coordinator: Dr. Satish Chand

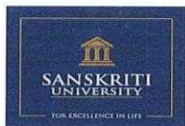

Objectives of the Program

- To create awareness about common plant diseases among farmers
- To educate farmers on identification, prevention, and management of plant diseases
- To promote scientific and sustainable crop protection practices
- To improve crop health, yield, and farmers’ income

Description of the Activity

The School of Agriculture, Sanskriti University, under the aegis **Unnat Bharat Abhiyan** organized a **Plant Disease Awareness Program** in Akbarpur village. The program was conducted as part of the university’s extension and outreach activities to support farmers with practical knowledge on plant health management. Faculty members and students interacted with local farmers and explained common plant diseases affecting major crops, their symptoms, causes, and modes of spread. Emphasis was given on timely disease identification, use of disease-resistant varieties, proper crop rotation, balanced nutrition, and integrated disease management practices. The farmers were also guided on safe and judicious use of pesticides and encouraged to adopt eco-friendly and sustainable plant protection measures. The program witnessed active participation and positive interaction from the farming community

Outcomes of the Program

- Improved awareness about plant diseases and their management
- Enhanced knowledge of scientific crop protection practices
- Promotion of sustainable and eco-friendly farming methods
- Strengthened university–farmer linkage under Unnat Bharat Abhiyan

No. of Faculty attended: 06

No. of Student attended: (List of students) 25

Co-coordinator: Dr. Ashish Tiwari

Conclusion

The Plant Disease Awareness Program organized by the School of Agriculture under IQAC was successful and beneficial for the farming community. The activity effectively supported the objectives of Unnat Bharat Abhiyan by enhancing agricultural knowledge, improving crop productivity, and promoting sustainable rural development. The university will continue to organize such programs for farmer welfare.
