Flood Rescue Operation by Bela College

On 18th December Ropar Villages inundated in floods due to heavy rain & water being released from the Bhakra Dam.

Following are pictures of Rescue operation by Students & faculty of Bela College.

JAL SHAKTI ABHIYAN

Date: 11.09.2019

Organised BY - NSS & faculty members

The NSS team organised an awareness seminar on water saving and conservation under "JAL SHAKTI ABHIYAN". This programme was co-ordinated by A.P. Amarjit Singh. The activities of this program were supervised by A.P. Sanjivani Rana. All the NSS volunteers participated in it with full dedication and excitement.

Without water, life is not possible on the earth. We totally rely on water for public health and equitable progress. It is essential for food and energy and it underpins the functioning of industries. Our NSS volunteers took vow to save water in every possible way and have accepted the challenge to make people understand the importance of water conservation. All the dignitaries imparted their valuable knowledge regarding water crisis around the globe.

We were made aware about different ways in which we can save water. For instance, the waste water given out by water purifier must not be let go as such. It should be collected and should be used for activities like washing utensils, watering the plants, washing the clothes, etc. Similarly water given out by air conditioners should be utilized in the same manner. The overflow of water from the storage tanks should not go into vain. We were deeply impressed by these small ways in which a layman can contribute in water conservation. We practiced it in our homes and also shared with as many persons as possible. It is a lovely experience doing something good for society.

Total number of persons: 14

1 person save water 10 to 12 litter water of 1 day

14 person save water in 1 days = 140 to 168 litter

POSTER MAKING COMPETITION

DATE: 19-11-2019

DAY: TUESDAY

There was a lot of excitement among the students who were gathered in the seminar hall of the college, where they were supposed to take the part in the poster making competition. The main motto of the competition was to make the slogans on water harvesting and water treatment systems. The students performed very well and were able to motivate other students by their talent. Lecture was delivered by Dr. Mamta Arora, P. Amarjit Singh, P. Sanjivani. Role of Judges were performed by Raveena Saini (H.O.D of Mathematics department), P. Rupinder Kaur, P. Rajinder Kaur, P. Kirandeep Kaur. Results were Piranha MSc (1st year) - 1st position, Rimy MSc Biotech 2nd position, Cushman MSc (1st year) 3rd position.

FIT INDIA MOVEMENT

There is a proverb; HEALTHY BODY HAS HEALTHY MIND. As we have observed that we are getting busier in our daily life. We hardly have time to exercise or we hardly walk around even 500 meter in a single day. This human laziness is increasing many problems like heart attack, diabetes, fatigue, strain etc. So in order to remove this laziness and diseases. The District Olympic associations, Rupnagar in collaboration with District administration Unna Hoshiarpur and Bilaspur, present the 1st edition of Bhakra Nagal – Wheels and strides. This event would set new standards in long distance cycling and running something that has never been witnessed before in this region. With a vision to spread the message of fitness and a healthy living lifestyle, the event is all set to take place in March 2019. This event is organized by district Olympic Association, Rupnagar. Formerly Known as Ropar, the town of Rupnagar is said to have been founded by a Raja called Rokeshar, who ruled during the 11th century and named it after his son Rup Sen. the town is of considerable antiquity. Recent excavations and Exploration conducted at Rupnagar indicate that the first civilized folk to settle here were the Harappa's , who apparently reached the upper Satluj toward the close third millennium B.C. District was carved out on 1st November 1966 at the re organization of the state. The district has rich historical and religious significance behind it.

Lecture on Fitness by Dr. Nishan Singh Deol

Our 78 students participated in marathon 5km fun game.

ONE STUDENT ONE TREE CAMPAIGN

AIM: our aim to plant one lakh trees in those villages which are adopted by the

IMPORTANCE: Trees contribute to their environment by providing oxygen, improving air quality, climate amelioration, conserving water, preventing soil and supporting wildlife. During the process of photosynthesis, trees take in carbon dioxide and produce the oxygen we breathe.

EVENT :- SEMINAR

TITLE :- IPR session

Date : 20 November 2019

Venue: Seminar Hall of Bela college

Intellectual Property contributes enormously to the national and state economy. Understanding its importance, Bela College has organized a session on IPR on 20 November 2019. Principal of Bela College, Surmukh Singh said that Dr. Amrik Singh (CEO Nangopharma) was invited to address the potential entrepreneurs so that they can be made aware about the eminence of patents, trademarks and copyrights. This session would help the students to drive the economic growth and competitiveness and it would also protect them as a consumer. Dr. Amrik Singh also emphasized on the importance of entrepreneurship to encourage the students to start their own business. He also added that entrepreneurship can act as growth engine for the development of Bela village. In addition, the IQAC cell of the Bela College took the feedback from the students on Innovation Practices in the College. Around 200 students from Biotechnology and Food Processing, and Non- Medical Department participated in the session. During this event, Principal Surmukh Singh, Dr. Mamta Arora, Dr. Satwant Kaur Shahi, Dr. Baljit Singh, A.P. Lovepreet Singh, A.P. Manpreet Kaur, A.P. Ramandeep Kaur, A.P. Navreet, A.P. Navjot Bharti, A.P. Parminder Kaur and A.P. Gurinder Singh were present.

Inculcating A Value System among Students.

Induction Programme of Bio-tech & Food Processing Department.

Day 1: 22 July 2019

'Acquaintance with The College Day'

Lamp lighting ceremony: Light is a prettily universal symbol of truth, knowledge, and understanding, it acts as a guide keeping us from stumbling in the dark. So before every auspicious moment lamp lightning is done. It was graced by Principal Surmukh Singh, Dr. Mamta Arora and all faculty members of Biotechnology and Food Processing Department.

Familiarization with the institute: This activity was organized on 22 July 2019 which included introducing the students with the vision, mission, history and reputation of college along with recent achievements of college. The lecture was given by Dr. Mamta Arora, H.o.D of Biotechnology and Food Processing Department.

Acquaintance with department: This activity was organized at 11:15am after the lecture on familiarization with the institute, which included vision, mission and pictures of laboratories and achievements of the department of Biotechnology and Food processing. This activity was organized by Dr. Parvinder Kaur.

Academic structure: Knowledge of academic structure of the institute is important for students to bring transparency in the institute. So Biotechnology and Food Processing Department organized a lecture by Gurdeep Singh, clerk in the college office, to provide the students with the knowledge regarding academic structure along with grading scheme, results and scholarships.

College tour: After lunch break the students were guided by teachers to a trip to college campus. They were shown all the departments, library, grounds, botanical garden etc.

Day 2: 23 July 2019

'Know the Department Day'

Address by the Principal: On the second day new comers were addressed by the principal Surmukh Singh regarding the institutional culture and moral values and were motivated to do undaunted efforts to achieve their goals. They encouraged the students not to demotivate themselves just by one failure. He encouraged them to dust themselves down and start their efforts again.

Description of Mentorship Program: Lecture on introduction to mentor mentee system was organized for the new entrants, which would help them to solve day to day problems encountered by them in college campus. It is necessary to discuss this system with students, so that they can know the procedure related this system. Students got to know their mentor's name and did interaction with their mentors.

Visit to the department of Biotechnology and Food Processing: Students were guided by the teachers to a trip to the department of Biotechnology and Food Processing. New comers were shown the laboratories, equipments and introduced with the lab attendants.

Day 3: 24 July 2019

'Entrepreneurship and innovation Day'

Lecture on importance of Entrepreneurship and Innovation: Entrepreneurship is increasingly recognized as an important driver of economic growth, productivity, innovation and employment, and it is widely accepted as a key aspect of economic dynamism. At the same time innovation is necessary for both individual and society.
