

On 16th June 2023 A Gram sabha meeting was organized in naglabel village in which 35 women Participated the agenda was to provide Livelihood opportunities by training of incense stick making technology from floral waste in collaboration with Scientist of CISR-NIScPR and local partner

Gayatri Shakipeeth ,SRLM BMM Shri Yogendra Kushwah said under their theme of Livelihood Generation some fund of Marketing support is expected to come in coming months in which we will Support in marketing of incense stick in and around Agra region if capacity building of Rural women

Of Self Help Group will be done by this training it will be beneficial for them ,it was decided that if

Floral waste will not be easily available then floriculture will be done by selected participant under These training if they will not get right price for flower then they will be dried and their paste will be made which will be used for Incense stick making whenever necessitates because these paste will be best before two years from their making from flowers ,if CSIR will provide funding then here this Work also can be done in a group of SHG, the student of Inter college of Gayatri Shakitpeeth will Also participate in training.
