List of Activities:

ACTIVITY 1:

Title of the Activity:

Eco-restoration activities of Sasthampooвам tribal colony at Mattathur village

Need of the Activity:

To refine the standard of living of the tribal colony inhabitants to find income by utilizing the medicinal trees which will initially restore the natural quality of the barren lands around them.

Brief Description (Need/Impact/Action/Picture (if any)):

The barren land was scientifically assessed and suitable native medicinal tree species have been

identified for the planting program to attain the eco-restoration and income generation from the same medicinal trees planted in the area. Nine major medicinal trees were selected for the area was moist deciduous type. Almost two hundred seedlings from the species of *Cinnamomum verum*, *Saraca asoca*, *Mimusops elengi*, *Aegle marmelos*, *Vateria indica*, *Terminalia bellirica*, *Wrightia tinctoria*, *Caesalpinia sappan*, *Garcinia gummi-gutta* were planted and also covered with additional tree guards to protect it from the browsing of wild antelopes. We also provided three species of high yielding plants such as *Murraya koenigii*, *Acacia catechu*, *Moringa oleifera* developed by KAU which provide healthy supplements to each of the families in the colony.

ACTIVITY 2:

Title of the Activity:

Training on Banana flour production for rural youth of mattathur village for entrepreneurship development

Need of the Activity:

Banana flour production training for youth farmers of Mattathur village has been organized by UBA cell KAU in order to support them to produce their own product as an alternative source of income, develop confidence among themselves and enhance their economic capabilities and potentials, boost and sustain their income for the family.

Brief Description (Need/Impact/Action/Picture (if any)):

Hands on training for the production of banana flour, General awareness regarding the machineries and equipment connected to the venture, marketing and management of enterprises, Value addition of the by products, Value added products of interim nature; dried slices of fruits, spices, tapioca were dealt in detail.
