Details/List of invited guest/speakers:- Sarpanch Shri Uday Narayan Meena and all respected ward members of Shivdaspura gram panchayat.

Objective of the event:- Enable participating higher educational institutions to work with the people of rural India in identifying development challenges and evolving appropriate solutions for accelerating sustainable growth.

Details :-

Students conducted survey in Malwa village under the guidance of Deepti Arela, villagers were supportive they very patiently told us challenges they are facing in village and what they do to overcome them, they finish their work early because of no road lights. They temporarily fix roads by themselves because roads construction is incomplete, transport facility is not available between hamlets. There is no medical dispensary within malwa village they go to Shivdaspura 3km from there village, sports facilities like playground are not available in school for students. There is no proper drainage system for overflow of water in rainy season in Rajasthan. The water that comes flowed down in village brings lot of garbage from city so they try to dumb as much as possible but garbage is still can be found as issue in Malwa village.

Students conducted survey in Kilkipura village under the guidance of Kiran Rathi, The challenges they are facing in the village are, Roads do not have road lights in the villages, They temporarily fix roads by themselves because roads construction is incomplete, transport facility is not available between hamlets so they use their local vehicles like bikes and cycles, There is not a single shop in the whole village for providing certain household things, There is no medical dispensary within Kilkipura village, There is no proper drainage system for overflow of water in rainy season.

Students conducted survey in Ranipura village under the guidance of Krishna Dayal Sharma, The challenges they are facing in the village are, They use water purifiers at major water filling places because of poor drinking water quality, There are no road lights and roads are not properly constructed and transport facility is not available within the hamlet, there is no school within the Ranipura village but children of Ranipura village go to the nearby private school of another (Nahariya ka bas)village. Garbage still can be found in the village Ranipura.

Students conducted survey in Khera Jagannathpura village under the guidance of Anirudh Mathur, The challenges they are facing in the village are, They temporarily fix roads by themselves because roads construction is incomplete, transport facility is not available between hamlets. There is no medical dispensary within Khera Jagannathpura village. They go to Shivdaspura 3.3km from there village, sports facilities like playground are not available in school for students. There is no proper drainage system for overflow of water in rainy season in Rajasthan. The water that comes flowed down in village brings lot of garbage from city so they try to dump as much as possible but garbage is still can be found as issue in Khera Jagannathpura. We found a positive feedback on teaching and learning aspects of the school.

Students conducted survey in Barh Ramzanipura village under the guidance of Dr. Monika Mathur. Although it was a small village but there was a lot to survey. We found some key issues common with all the villagers such as:

- Lack of proper Education facilities available for the children.
- Lack of Medical facilities.
- Lack of technical education among people.
- Poor transportation system.
- Poor network connectivity and internet.
- Irregular water supply.

Feedback of the event:-

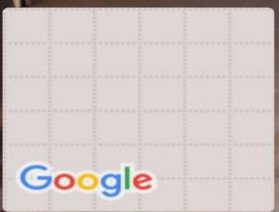

This survey made us familiar with villagers and their problems. It was a great experience for students also as many of them visited such villages first time. The team associated with UBA cell will surely try our level best to help out all the fellow villagers to improve their living standards in five villages associated with Shivdaspura.
